We can do better for our kids and for our schools. Please oppose the nomination of Betsy DeVos.

All children have the right to an education that helps them reach their full potential. That's the vision of opportunity and democracy our public schools stand for and the goal Americans expect a secretary of education to strive to achieve. But rather than choose someone who can strengthen and improve public schools, Donald Trump selected a billionaire with no public education experience who will undermine and defund public schools like she did in Michigan.

DeVos' only involvement in education has been funding an agenda to undermine, privatize and demonize our public schools. She and her family have spent millions on this radical agenda. In Michigan, DeVos pushed for tax cuts for the wealthy at the expense of public schools; for vouchers that divert taxpayer funds to private schools; and for allowing for-profit charter school corporations to make money off taxpayer-

ers and children, with no accountability.

DeVos falls short on both counts. She has no public education experience or training of any kind. She has never been a teacher or school administrator, served on any public board of education, or even attended a public school. In fact, she would be the first U.S. education secretary who hasn't attended public schools herself or sent her children to them.
