We make healthcare work

AFT Nurses and Health Professionals

On March 23, Congress will chose to make healthcare work for America's families, or to give **millions in tax breaks** to the insurance industry, big pharma and the very wealthy.

If Republicans lawmakers vote to repeal the Affordable Care Act and replace it with the American Health Care Act, or "Trumpcare," **healthcare will not work** anymore— not for older Americans, the disabled, working families or poor children.

More than **26 million** people will **lose health coverage** in the next 10 years; seniors will **pay thousands more** for coverage; and hospitals, schools and state budgets will lose millions in federal funding and support for healthcare services.

✔ I'm joining with nurses, health professionals and community organizations on March 23 to oppose repeal.

Join the national day of action on March 23, the anniversary of the 2010 signing of the Affordable Care Act, and take a stand for healthcare by writing, calling, petitioning and speaking out for our patients, our hospitals and our communities.
