Health Professionals

NATIONAL DAY OF ACTION: JANUARY 15, 2017
DON'T MAKE AMERICA SICK AGAIN

President-elect Donald Trump and Republicans in the U.S. Congress are **gambling with America's health**. Their plan to repeal the Affordable Care Act (ACA) without a viable replacement will take away the health coverage of **30 million people**. What's more, an additional **52 million people** with pre-existing conditions will lose coverage, putting millions of Americans and the entire health system **at risk**.

On Sunday, Jan. 15, nurses and healthcare professionals in the American Federation of Teachers are joining with our community, faith-based and labor partners to launch a campaign to stand against this reckless attack on our nation's health.

Take a Stand. Take Action!
Our fight to save healthcare will take time and sustained, collective action. Jan. 15 is just the beginning. Here's how you can join the fight.

- Contact your members of Congress and tell them not to repeal the ACA. **Call 877-337-7932**.
- Participate in a collective action on Jan. 15. To find an action near you, **go to http://allin.rtp.aft.org/**.
- Leaflet your neighborhood and ask friends and family members to call their congressional representatives. For leaflets and materials, **go to http://allin.rtp.aft.org/**.
