

Renaissance Village Housing Complex Overview

The Renaissance Village housing project is a direct response to the housing crisis in McDowell County. There is a deficiency or complete lack of adequate housing for teachers and working professionals in the McDowell area. This housing initiative will provide two floors of apartments. Along with the apartments there will be two floors of commercial space within the Renaissance Village for a coffee shop/deli as well as office space(s) for rent. We believe this project will spur and facilitate economic growth in the community. Construction is expected to begin spring 2019.
