

# PUBLIC SCHOOLS WEEK 2020

FEBRUARY 24-28

90%

of all U.S. students  
are educated in  
public schools.

That is **50.8 million students** regardless  
of race, ability, wealth, language, religion,  
country of origin, or special needs.

## Take the Pledge for Public Schools and get involved at your local school:

Join educators and parents to celebrate the successes  
of their students and local schools, and invite businesses,  
policymakers and community members to see firsthand the  
importance and potential of public education.
